### Career Objective:

A dedicated and hard-working developer with hands-on experience in building and maintaining scalable, user-centric web applications. Passionate about writing clean, maintainable code to ensure a seamless user experience. A quick learner, always eager to stay up-to-date with the latest industry trends and technologies. Seeking an opportunity to contribute to impactful projects and further enhance my skills in a collaborative and growth-focused environment.

### PROFESSIONAL SKILLS

- Proficient in JavaScript, TypeScript and ReactJS
- Skilled in Next.js, specializing in performance optimization through Server-Side Rendering (SSR)
- Adept at code reviews, debugging, troubleshooting, and ensuring efficient functionality
- Familiar with Figma, Aceternity UI and Framer Motion
- Competent in state management using React Context and Redux, alongside data fetching with RESTful APIs
- Efficient in ensuring cross-browser compatibility with a strong focus on crafting aesthetic and user friendly UIs.

### PROFESSIONAL SKILL DEMONSTRATED

#### Tech Insights (A News Website)

[Live Link](#) [Client Side](#) [Server Side](#)

##### Key Features:

- Created a dynamic website where users can browse tech articles and purchase premium memberships through Stripe.
- Architected a dedicated admin dashboard for streamlined content management and Designed a visually appealing UI.
- Utilized MongoDB's aggregate pipeline for efficient data fetching, pagination, search, and sorting functionalities.

**Technologies:** React.js, Node.js, Express.js, MongoDB, JWT Authentication, Stripe Payment Gateway

#### ByteBlog (A Blog Website)

[Live Link](#) [Client Side](#) [Server Side](#)

##### Key Features:

- Engineered a blogging platform where users can register, and manage their blogs with full CRUD functionality.
- Architected with JWT for user authentication, Created a visually appealing UX/UI for an engaging user experience.
- Customized and tested for optimal performance, featuring React Query for efficient data fetching.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Firebase Hosting, JWT Authentication, React Query.

#### Craft Canvas (An Art and Craft Store website)

[Live Link](#) [Client Side](#) [Server Side](#)

##### Key Features:

- *Craft Canvas* is equipped with CRUD functionality, supported by a RESTful API and MongoDB for data management.
- It features Firebase authentication with private route for guest users, ensuring smooth navigation and secure access.
- Utilized the Context API to create a theme-switching feature, enhancing user experience and interface customization.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Firebase Hosting, JWT Authentication, React Query.

### LANGUAGES AND SOFT SKILLS

- Fluent in both Bengali and English, ensuring clear, confident communication across diverse teams and stakeholders.
- Displays strong resilience under pressure, handling multitasking and staying composed in high-stress situations.
- Excels in teamwork and collaboration, yet equally adept at working independently with minimal supervision.
- Proficient in using project management tools like Trello, Jira to maintain reliability, and meet project goals efficiently.

### EDUCATION AND PROFESSIONAL CERTIFICATES

 B.S.S (Economics), University of Chittagong (January 2017 - December 2022)

 **Complete Web Development** (February 2024 - September 2024) [Certificate](#)

 Programming with JavaScript By Meta (Coursera) [Certificate](#)

 Modern JavaScript from the Beginning 2.0 (Udemy) [Certificate](#)
